

ORDER OF THE PHOENIX

Crisis psychological support and
rehabilitation program for
Ukrainian children affected by the
war

www.orderphoenix.org

THE CATASTROPHE

The ongoing **war**

in Ukraine is the biggest in the
21st century.

Children

suffer from it the most.

THE DARKEST HOURS

«This war will have dire consequences for generations to come because of the direct threat to children's lives, their physical and mental health, the destruction of infrastructure»

THE SCALE OF THE TRAGEDY

13-years-old Vova, who was severely injured, is now fighting for his life in an operating room in the Okhmatdyt Children's Hospital

637

children have been murdered and injured

300 thousands

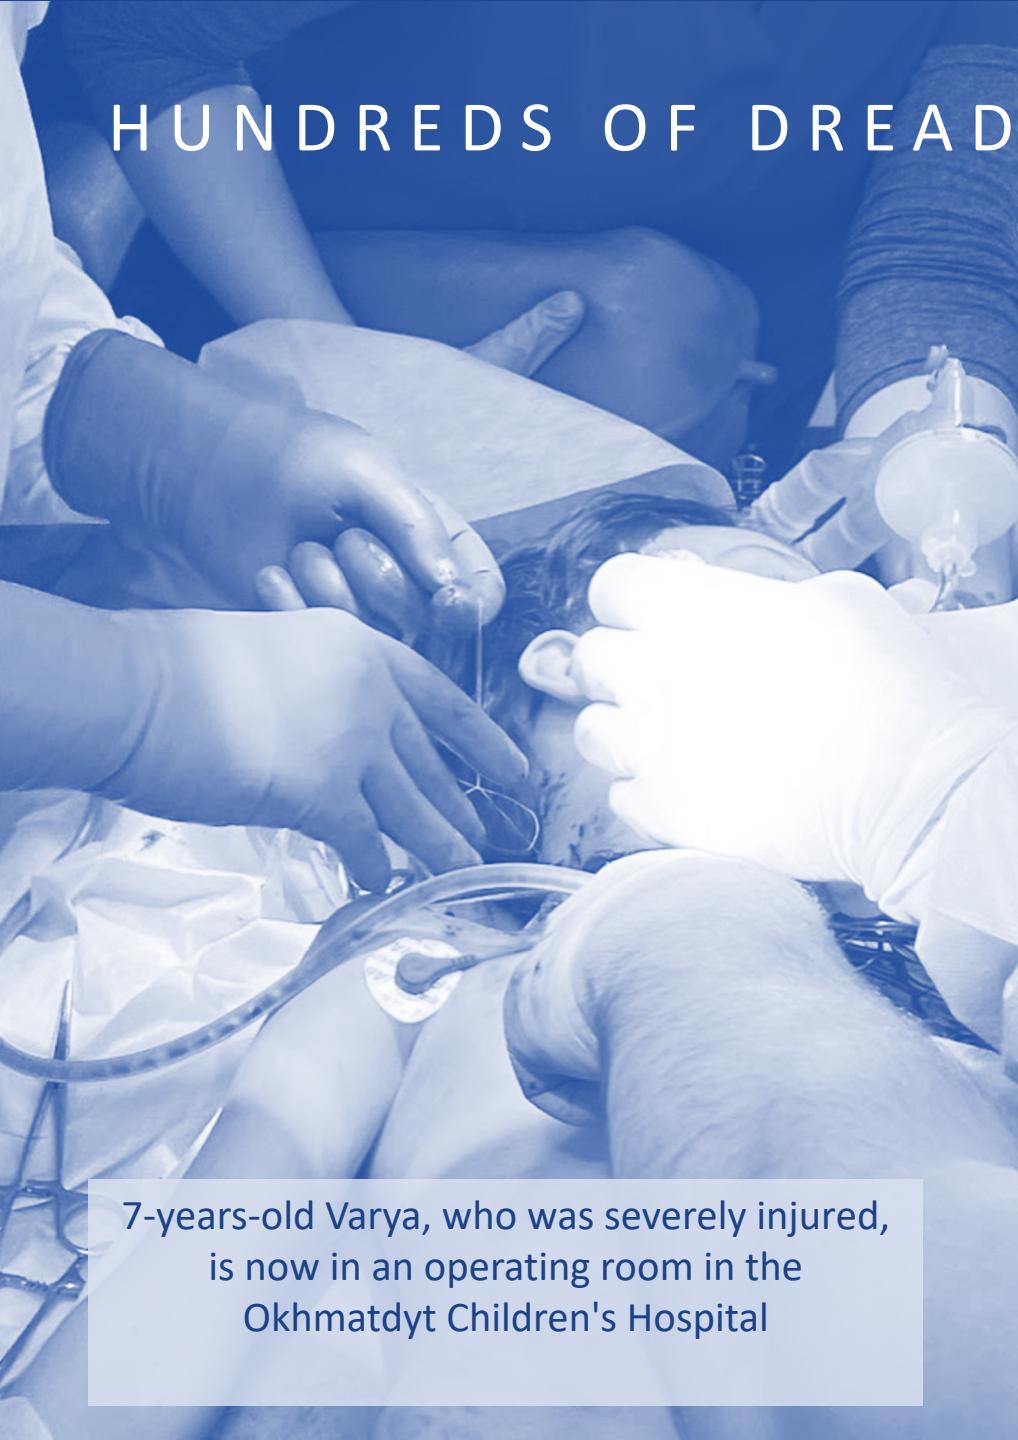

children are currently in the area of combat operations

4,7 millions

children have fled their homes

Неповні попередні дані станом на 14.04.22. Без даних по м. Маріуполь.

HUNDREDS OF DREADFUL STORIES

7-years-old Varya, who was severely injured, is now in an operating room in the Okhmatdyt Children's Hospital

ORDER OF
THE PHOENIX

Milana

6 years old

Her house has been hit by a missile. Her mother died while Milana, together with her younger brother and father, were severely wounded.

Varya

7 years old

Her parents' car, with her family inside, was hit by occupants' artillery. Together with her mother, they have been seriously wounded by missile debris.

XXXXXX

14 years old

Raped by 5 Russian militants in Bucha. Now pregnant.

Yura

14 years old

Together with his family, Yura was heading to Bucha downtown to find food. They were shot by occupants. His father was shot dead, Yura has got gunshot injuries.

Vova

13 years old

The family's car was shot during the evacuation. Vova's father and 6-year-old brother were shot dead. Vova has got a serious head injury.

XXXXXX

11 years old

The boy was raped in front of his mother in occupied Bucha.

THE WAR TRAUMATIZES

ORDER OF
THE PHOENIX

The war is not injuring and crippling children not only physically.

The war has a severe phycological effect on children's mental health, and it also negatively affects their future.

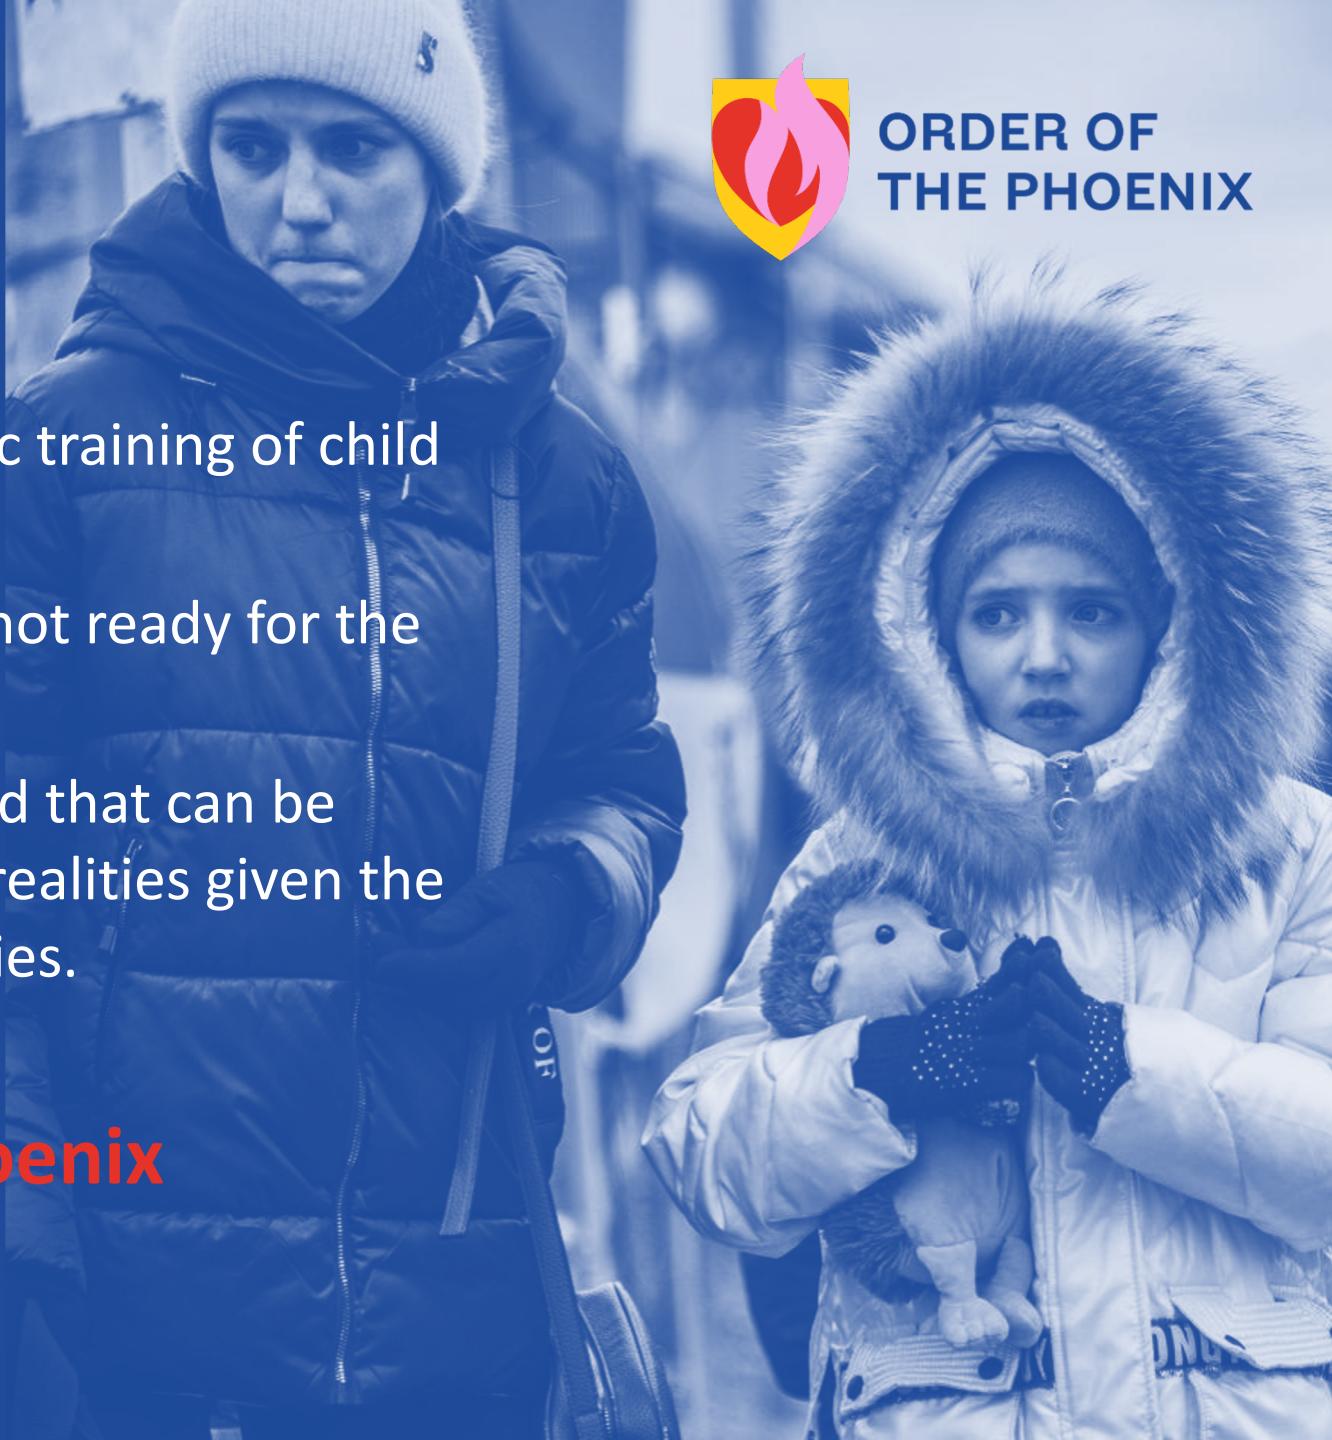

Tens of thousands of children in Ukraine will be in need of crisis psychological support.

Hundreds of thousands will need psychological support.

THE PROBLEM

- There is no methodology and systematic training of child crisis psychologists in Ukraine.
- Medical and educational networks are not ready for the scale of the critical situation.
- There is no current program in the world that can be taken and transferred to the Ukrainian realities given the scale of the tragedy and local peculiarities.

That's why the Order of the Phoenix project was launched.

ORDER OF
THE PHOENIX

OUR VISION

The light will win over darkness.

We named the initiative after a coalition of forces of good that opposed Lord Voldemort's Army of Darkness in Joan K. Rawling's fantasy saga «Harry Potter» - a cult for millions of children.

OUR MISSION

We are joining forces with organizations and professionals from around the world to launch a crisis program for the psychological protection and rehabilitation of Ukrainian children.

**We will not allow the horrors
of war to take away the
future of our children**

Our main goals:

1. Urgent **development of the methodology** together with the leading specialists and institutions from the United States, Israel and Ukraine.
2. Establishment of a **single center for training, internships and certification** of child crisis psychologists in Ukraine.
3. Creating a professional **network of crisis psychologists** who will work with difficult cases.
4. Development of methodology and materials for **retraining 20,000 school psychologists** who will be able to support students and parents in the war and postwar period.
5. **Rehabilitation of injured children abroad** (for those who have survived the death of their loved ones, suffered injuries, acts of violence, or other traumatic experiences).

WHO WORKS TOGETHER WITH US

Organizers:

- State institution «SUPERHEROES SCHOOL»
- NGO «SMALL HEART WITH ART»
- Project company «IDEI»
